November 17, 2009

To the Announcement Reception for Terry McCormick,

I have known Terri McCormick for many years, and think most highly of her legislative record in Madison. She has been a real bell ringer down there, and I know she will repeat that perseverance and persuasiveness in Washington, and with the kinds of efforts that we seriously need to reverse the slide we have been in out there.

Terry is also a very talented candidate to match with her intelligence, and that is what will bring about the change we need so desperately in WI-8, as well as in DC itself. It is going to be an exciting race to watch, and I for one will be watching closely!

Terri already has an amazing collection of supportive groups in this bid for office, and I am not in doubt she will win the primary, if there is one, and the general election as well when the voting is over less than one year from now.

I have already put her in touch with my Washington contacts, commending support from them for her candidacy, and am sure she will be well received there. The next obvious job is fundraising inside the state, and my wife Mary and I will be there with the maximum allowable.

Warm regards to all in my absence - wish I could have been there!

Sincerely,

Terry J. Kohler  
Sheboygan, Wisconsin.
